

Introducing EPO-TEK® 343ND-LH

Epoxy Technology's Latest Advancement in
Fiberoptics Excellence

Attributes

Low Halogen &
Green Chemistry

High Tg/
High Strength/
High Reliability

Snap Curable at
only 80°C in as
little as 30 minutes

Longer Pot Life & Workability
in Room Temperature

Faster Curing than our
GOLD-STANDARD
EPO-TEK® 353ND

Scan the QR code for the Technical Data Sheet.

Common Applications

Fiber Optics
- Fiber Ferrule

Optoelectronics
- Optical Components Sub-Assembly

Piezo Electric
Bonding

Lidar/IR Sensors

Motors and Inductor Coils
- Insulating Copper Coil Windings

EPOXY
TECHNOLOGY

A Meridian Adhesives Group Company
